

THE VISTA HIGHLIGHT OF THE MONTH

AUGUST 2013

NEXT GENERATION LED

5000 Series Up & Accent Fixtures

with Factory-Installed Vista MR-16 LED Lamps

» **High-performance Vista MR-16 LED lamps:**

4.5 watt or 5.5 watt lamps make it easier to maximize energy savings and minimize maintenance.

» **Optimum job site convenience:**

Each fixture is shipped with an LED lamp already installed. No hand assembly is required, saving you time and labor.

» **Compact design enhances aesthetics:**

Maximum light output is achieved from this LED fixture that can be conveniently concealed throughout the landscape, even within tree branches.

» **Water-tightness assures lasting performance:**

A patent-pending silicone diaphragm gasket allows the fixture to breathe during thermal cycling to prevent moisture from being drawn into the lamp and socket.

» **Options to complement your design:**

All standard finishes are available, along with a choice of accessories, including lenses and louvers.

For details about this best-of-both-worlds technological breakthrough, contact your Vista sales representative.

Limited Time Offer

LIST PRICE: **\$109.00**

(with 4.5 watt LED lamp installed)
